

Regeneron ISEF 2023

Grand Award Judging

Welcome

Thank you for agreeing to serve as a Grand Award Judge at Regeneron ISEF 2023! The Society for Science is pleased to have you join us in celebrating and evaluating over 1,300 projects from over 1,600 finalists representing 64 countries, regions and territories, including 49 states within the U.S.

As a Grand Award Judge, you will be scoring projects to help determine the 1st-4th place award winners.

Reward the Best & Encourage the Rest! 

Regeneron ISEF 2023 Awards

First Award -	\$5000
Second Award -	\$2000
Third Award -	\$1000
Fourth Award -	\$500

Top Awards (First Place winners are eligible)

\$75,000 (1)	The George D. Yancopoulos Innovator Award
\$50,000 (2)	Regeneron Young Scientist Awards
\$50,000 (1)	Gordon E. Moore Award for Positive Outcomes for Future Generations
\$10,000 (1)	Craig R. Barrett Award for Innovation.
\$10,000 (1)	Robert Horvitz Prize for Fundamental Research
\$10,000 (1)	Peggy Scripps Award for Science Communication
Experiential Trip:	Dudley R. Herschbach SIYSS Award (3)
Experiential Trip:	EU Contest for Young Scientists Award (2)

Regeneron ISEF 2023

Tuesday, May 16 Schedule

TIME	ACTIVITY
12:00 – 5:00 PM	Judge Registration/Review of Project Displays
5:00 - 7:00 PM	Category Judge Training and Dinner
7:00 – 9:00 PM	Exhibit Hall Open for Review of Project Displays

Regeneron ISEF 2023

Review Project Materials

You will find the following materials at the project booth:

- Display Board
- ISEF Paperwork
- Additional materials like props, demos, lab notebooks, etc., if provided by the finalist

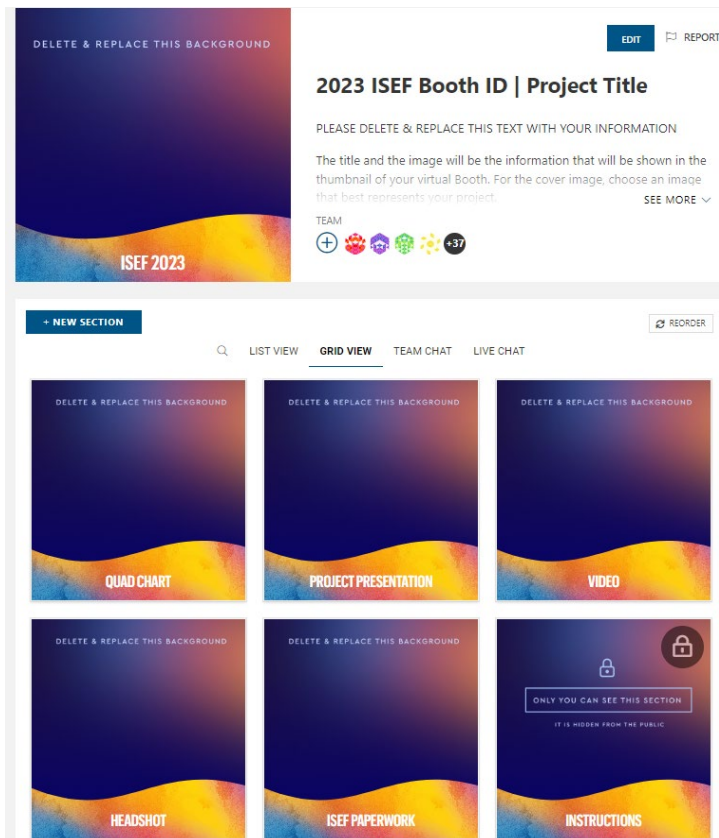

In this project review, your goal is to:

- Gather a basic understanding of the project
- Formulate questions for the interview
- Select your My5 Projects

Regeneron ISEF 2023

Review Project Materials

Each project also has a virtual display with a unique URL within ProjectBoard. This is an option for doing further review of the project, but it is essential to preview the physical board.

You can access the links to the projects in your category through the Judge Application:

<https://judges.societyforscience.org/>

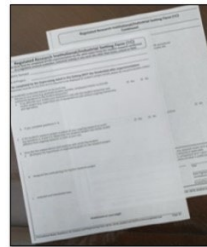

Regeneron ISEF 2023

ISEF Paperwork

Abstract

Summarizes the research
Where it was conducted
If it was a continuation

Form 1C: Regulated Research Institution Setting Form

Required if finalist did research at a RRI or industrial setting
Filled out by the mentor
Identifies independent work done by finalist in comparison to overall work of the lab

Form 7: Continuation Project

Completed if student conducted similar work in a prior year
Interview should focus ONLY on the current year's work
May be necessary to specifically ask a finalist what was done in the current year versus what was done in previous years

Regeneron ISEF 2023

My5 Projects

1. Review projects in the exhibit hall
2. Pick 5 projects you would like to interview. Must be projects in your category that you are not already scheduled to interview.
3. Star your My5 Projects in the Judge Scoring System by 9:30 AM on Wednesday.
4. Selected projects are used to assign interviews for Periods 19 and 20

Regeneron ISEF 2023

Wednesday, May 17 Schedule

TIME	ACTIVITY
7:00 – 7:45 AM	Exhibit Hall Open for Project Review
7:00 – 8:00 AM	Breakfast Served
8:00 - 9:00 AM	Category Judge Meeting
9:30 -11:45 AM	Interview Periods 1-9
Noon-1:00 PM	LUNCH
1:15 – 3:30 PM	Interview Periods 10-18
3:45 – 4:15 PM	Interview Periods 19-20
4:30 - 7:00 PM	Category Caucuses to select winning projects
5:00 – 7:00 PM	Dinner Served
7:00 – 10:00 PM	Category Judge Reception

Regeneron ISEF 2023 Judging Criteria

Regeneron ISEF Judging Criteria

- I. Research Question (10 pts)
- II. Design and Methodology (15 pts)
- III. Execution (Science): Data Collection, Analysis & Interpretation (20 pts)
- or -
- III. Execution (Engineering) Construction and Testing (20 pts)
- IV. Creativity (20 pts)
- V. Presentation (35 pts)

Regeneron ISEF 2023

How to Interview

Interview Considerations:

- Take control of the interview
- Keep questions focused on ISEF judging criteria
- Find strengths and weaknesses of each project
- Attempt to engage all students in team projects
- Interpreters will be available for non-English speaking finalists; be sure to engage the finalist(s) in conversation.

The judge's approach to the interview should:

- Be friendly, courteous, and professional
- Demonstrate an interest in what the student has done
- Employ active listening
- Attempt to learn something from each project
- Differentiate nervousness/shyness from lack of knowledge

Regeneron ISEF 2023

Things to Consider

Things to consider as you formulate questions:

- Can the student explain important aspects of the project?
- Are there important aspects of the project that are not clear from the poster?
- Does the student understand the limits of their results/conclusions?
- Does the student understand the basic science/engineering principles relevant to the project?
- What independent contributions did the student make to the project?

Regeneron ISEF 2023

Things to Consider

More considerations as you preview the project and form questions:

- Is this good science or engineering?
- Has the finalist created new knowledge? Are they clever? Creative?
- What work did the finalist do? What support did they receive?
- Does the finalist understand the basic scientific or engineering principles in the project?
- Has the finalist used statistics to justify the validity of their conclusion(s)? Do they understand what they have done?
- Are the presentation materials clear, coherent and well thought-out?
- Has the finalist reviewed appropriate literature and created appropriate references?

Regeneron ISEF 2023

Frequently Asked Questions

- **Limit guidance or answers to Finalists:** Avoid providing explanations or answers to your questions, because the finalists could later use your answers when presenting to other judges and distort the judging process.
- **Team Projects:** A good team project requires a partnership where all parties contribute to the development of the project. You are encouraged to engage and direct questions to all team members during the interview.
- **Lab Notebooks:** While many students may have a lab notebook as part of their display, it is not a required element.

Regeneron ISEF 2023

Potential Ethical Concerns

- The ISEF Scientific Review Committee reviews all projects for adherence to the ethics statement and to the International Rules – including a plagiarism check.
- However, if a judge has a concern, the judge must discuss with the co-chair by Wednesday, 9:30 a.m.
- Such concerns are not to be discussed with any Finalists or other Judges.
- No new allegations of plagiarism or ethics are to be brought up nor will they be considered during caucus.

Regeneron ISEF 2023

Conflict of Interest

If you have any real or potential conflicts of interest with any finalist or project in your category, let your Co-Chair know immediately.

These include, but are not limited to:

- Mentor or teacher relationship with a finalist in your category.
- Parent or relative of a finalist in your category.
- Chaperone, fair official or association with an ISEF-affiliated fair represented by a finalist in your category.

Regeneron ISEF 2023 Special Awards Judges

- Represent Professional Organizations, Corporations and Government.
- Have dedicated interview times on Wednesday.
- May interview finalists during Grand Awards Judges' unassigned interview periods.

Regeneron ISEF 2023

Professional Conduct

- Treat finalists as young professionals
- Be positive, encouraging and respectful
- Do not record/photograph the students or project display
- Remember the ethics statement you signed on the application
- If you become aware of an inappropriate situation involving students, contact your Category Co-Chair or Society staff
- If you suspect plagiarism DO NOT discuss with student. Contact Co-chair or Society staff for further action
- Students and judges should not exchange personal or contact information. Judges wishing to have further contact with a student should contact Society staff.

Reward the Best & Encourage the Rest!

Regeneron ISEF 2023

Thank You!

Thank you for supporting and
inspiring ISEF finalists.
