

Parking at the Dallas Convention Center

Use the Parking Garage in the Dallas Convention Center (KBHCCD)

Parking for judges will be provided within the Kay Bailey Hutchison Convention Center Dallas located at 650 S Griffin St., Dallas, TX 75202.

For free parking, judges must park in the parking garage within the Convention Center itself. On the map to the right, the entrance is about in the middle of the building on Griffin St. indicated by the yellow star on the map. *Do not park in any other public parking lot.* ISEF has contracted for parking only with the Dallas Convention Center. ISEF will NOT be able to reimburse you if you park in any of the surface public parking lots (labeled “P” in the map) or the Omni Hotel parking lot.

Entering the Parking Garage

When you enter the KBHCCD parking garage, you must take a ticket from the entrance ticket dispenser. Push the button on the machine and pull your ticket. Park your vehicle, secure any belongings inside, and lock your doors. Be sure to take your ticket with you.

Leaving the Parking Garage

ISEF will pay for your parking by attaching a QR code to your parking ticket. (Donating this parking fee is welcomed support of the Society for Science.) To get this QR code:

- On Tuesday, go to the Judging Control Center located in room D168.
- On Wednesday, go to the Judge Reception in the D1/D4 Ballroom on Level 3.

Show the staff your parking ticket and they will attach the QR code sticker.

Then drive your car to the exit where you will find a ticket dispenser/scanner similar to the one you encountered upon entering the garage.

1. Pull your car forward until the LED screen in the upper right corner illuminates red. (See the red region in the picture on the previous page.) DO NOT press a button to dispense a ticket.
2. Once the LED screen illuminates red, scan the QR code on your ticket by placing it in front of the LED screen. The gate should then open to let you out of the garage.
3. If the gate does not open, you may need to reposition the QR code sticker or angle it towards or away from the LED screen for the scanner to recognize it.
4. If the QR code is still not recognized, you can:
 - a. Use the Call Center button on any of the pay stations for assistance, or
 - b. Call +1-214-670-4255 for the ACE Parking Manager.
